

I like coming to doctor Coloma because all of the employees are extremely nice. Also all of the work is done with the patient in mind. When I came and had my cavities done Dr. Coloma was very calm but understanding now I felt. Even in cleanings all the employees are very understanding about how you feel. The first time I came to the office I was nervous because at the other dentist office I was at ~~was~~ ~~not~~ not enjoyable ~~and~~, but when I came here everyone was so nice and easy to talk too.
